Classes - %'s and calculation of classes:

The algorithm takes the most 3 recent events a shooter has scored in and then works out an average. This average is used to determine the class. The classes are as follows:

- Class C – Below **70%**
- Class B – Between **70%** and **80%**
- Class A – Between **80%** and **90%**
- Open – Above **90%**

The classes update within 2 hours of each event.

We trust you find this in order.
